

Perfect Information

How should universities prepare information graduates for the working world?

Hazel Hall
School of Computing
Napier University

Breakout session agenda

Introduction (half an hour maximum)

- UK context
 - Current provision of UK accredited LIS courses
- Institutional example
 - Napier provision
- Challenges
- Your potential contribution

Breakout activity (one hour maximum)

- Explained at the end of the presentation...

Current UK programme provision

Universities - 16

- ❖ Aberystwyth, Brighton, City (London), Leeds Metropolitan, Liverpool John Moores, London Metropolitan, Loughborough, Manchester Metropolitan, Napier (Edinburgh), Northumbria (Newcastle), Robert Gordon (Aberdeen), Strathclyde (Glasgow), Thames Valley (London), University College London, West of England (Bristol)

Courses - 56

- ❖ 45 postgraduate courses
- ❖ 11 undergraduate courses – some recent closures
- ❖ “Average” provision – 1 at undergraduate, 3 at postgraduate level

Perfect Information

Programme focus 1

“General” titles

- ❖ Information Analysis/Management/Science/Studies
- ❖ Information and Knowledge Management
- ❖ Information Services/Systems Management
- ❖ Knowledge Management
- ❖ Librarianship
- ❖ Library and Information Studies/Information and Library Studies

Perfect Information

Programme focus 2

Titles that reflect information format

- ❖ Digital Information Management (London Metropolitan)
- ❖ Digital Libraries (Strathclyde)
- ❖ Electronic Communication and publishing (University College London)
- ❖ Electronic Information Management (Robert Gordon)
- ❖ Electronic Publishing (Loughborough)
- ❖ Records Management (Aberystwyth, Northumbria)

Programme focus 3

Sector-specific titles

- ❖ Chemoinformatics (Sheffield)
- ❖ Geographic Information Management (City)
- ❖ Health Informatics/Information Management (Brighton, Sheffield/Aberystwyth)
- ❖ Information Management in the Cultural Sector (City)

2 undergraduate business-related titles

- ❖ Business Management and Information (Liverpool John Moores)
- ❖ Information Management and Business Studies (Loughborough)

Programme priorities

Understanding

- ❖ of concepts and principles (i.e. theory); analysis, implementation and management of information and information services (i.e. practice).

Application

- ❖ of concepts and principles.

Evaluation

- ❖ of information systems and services, and their deployment to solve problems.

Independent judgement and critical awareness

- ❖ to enquire, analyse, think creatively, reflect, reason, communicate.

Achieving individual potential

- ❖ basis for future personal development, continuing professional development.

Subject benchmark statements: Librarianship and Information Management

Subject benchmark statements

Subject benchmark statements provide a means for the academic community to describe the nature and characteristics of programmes in a specific subject. They also represent general expectations about the standards for the award of qualifications at a given level and articulate the attributes and capabilities that those

BSc Information Systems (Management)

MSc Information Services Management

Module 1	Module 2	Year 1
Module 3	Module 4	

Eligible for postgraduate certificate

Module 5	Module 6	Year 2
Module 7	Module 8	

Eligible for postgraduate diploma

DISSERTATION		Year 3

Eligible for MSc

Perfect Information

Module provision

Sample module titles

- ❖ Action-oriented research
- ❖ Bidding for information systems contracts
- ❖ Business information sources
- ❖ Business intelligence
- ❖ Business systems analysis
- ❖ Content integration
- ❖ Information delivery
- ❖ Information strategy
- ❖ Information systems management
- ❖ Knowledge management
- ❖ Security of information systems
- ❖ Strategic management

Module provision

Sample module titles

- ❖ Action-oriented research
- ❖ Bidding for information systems contracts
- ❖ Business information sources
- ❖ Business intelligence
- ❖ Business systems analysis
- ❖ Content integration
- ❖ Information delivery
- ❖ Information strategy
- ❖ Information systems management
- ❖ Knowledge management
- ❖ Security of information systems
- ❖ Strategic management

BIS and KM
particularly
highly rated by
the students

Perfect Information

Specialism through dissertations

Dissertation themes - examples

- ❖ Internal blogging in corporate environments: their role in innovation and new knowledge creation
- ❖ Business applications of social software (messaging)
- ❖ New media channels for house sales
- ❖ Web logs and current awareness services
- ❖ Centralised versus decentralised intranet content development
- ❖ User perceptions of commercial online information services
- ❖ Role of the information professional in investment banking
- ❖ Mergers and acquisitions in the online information services industry

Business relevance

Work incorporated into degree programmes

- ❖ Placements on undergraduate programmes
- ❖ Work experience requirements for admission to postgraduate courses
- ❖ Work-based assessments, e.g. BIS tenders, AOR proposals

Industry contributions to modules

- ❖ Part-time lecturers, e.g. Kenny Walker on BIS
- ❖ Guest speakers, e.g. Sun on IDEL, TFPL and Scottish Enterprise on KM, RBS on BIS, Oracle on BISC
- ❖ Events, e.g. KM panel session, IS Student Conference

Field trips

- ❖ e.g. Scottish & Newcastle, CapGemini, Online conference

Are we doing it right?

A strongly supportive and collegiate atmosphere in the School.

Well-chosen range of teaching techniques.

Well-managed work experience placement.

Imaginative use of the impressive information technology.

The quality of learning resources is commendable.

The quality of teaching and learning is commendable.

Project and dissertation guidelines are excellent.

Staff are dedicated, skilled and approachable.

But we face BIG challenges: 1

How to attract quality students in the first place

- ❖ Decline in undergraduate interest
 - Dot.com bubble bust
 - Misperceptions of a subject area not necessarily taught at school: computing/library work is boring; there is no longer a need for specialist education in this area; career potential wiped out due to outsourcing; lack of vocational certainty
 - Parental/teacher preference for “traditional” subject choice in “traditional” institutions at undergraduate level
- ❖ Postgraduate concerns
 - Debt from undergraduate career
 - Lack of access to funding/sponsorship
 - Fitting study into “life”
 - A postgraduate degree is not a requirement for information work

But we face BIG challenges: 2

How to meet the needs of the changing market

❖ Markets

- Servicing two markets: students and employers – how to attract the best raw material and produce the best end product; disconnect between employer requirements and applicant aspirations
- Researching, understanding and responding to trends – difficulties of recruiting teaching staff in times of staff shortages and high salaries outside the academic sector

❖ University planning cycles are much longer than those in business

- Programme ideas, module design, module approval, marketing etc.

❖ Staying relevant

Your potential contribution

General

- ❖ Respond to calls to comment on initiatives

School/faculty level

- ❖ Advisory board membership

Programme level

- ❖ Assist with validations
- ❖ Contribute to efforts of professional bodies, e.g. CILIP representation

Module level

- ❖ Offer placement/work-based learning opportunities
- ❖ Offer your company as a case study for dissertation work
- ❖ Contribute to visiting speaker programmes

Breakout activity – design an MSc

Module 1	Module 2
Module 3	Module 4

Year 1

Eligible for postgraduate certificate

Module 5	Module 6
Module 7	Module 8

Year 2

Eligible for postgraduate diploma

DISSERTATION	
---------------------	--

Year 3

Eligible for MSc

Discussion points

For each module

- ❖ Decide a title
- ❖ List learning outcomes (4 maximum). Use the wording:
 - On completion of this module the student will be able to...[explain the general principles of X/critically assess/evaluate...]
- ❖ Describe the module content (6 sentences maximum)
- ❖ Suggest how the module might be assessed, giving both the assignment format and “question”:
 - For example, a 3000 word report on X

For the dissertation module

- ❖ Suggest some dissertation topics

And if time allows...

- ❖ Devise a marketing plan for your new degree

Perfect Information

MSc Information Services Management

Managing knowledge	Strategic thinking for IS
People in organisations	Content integration

Year 1

Eligible for postgraduate certificate

Technology challenges	Managing service partnerships
Security compliance	Action oriented research

Year 2

Eligible for postgraduate diploma

DISSERTATION	

Year 3

Eligible for MSc
